

Racing Rules

Approved at the 2016 A.G.M.

1. Club Colours

Club colours are agreed by the Committee after consulting the membership.

2. Club record and trophy claims.

Claims for club records and trophies should be made to the Committee on the club claim form. In the event of a dispute the onus for supplying information to substantiate the claim is to be on the claimant not the club.

3. Individual and team records.

- a. Gold medals will be awarded to the rider holding any records at the end of the season. If more than one rider beats the record during the season then, the rider with the current fastest time becomes the medal winner. These rules also apply to team records, in that the fastest team record of the season claims the medals. Riders may choose to have a plaque rather than a medal if they are prepared to bear the cost.
- b. Claims to establish a club record where none currently exists will be considered by the Committee provided:
 - i the event, distance and category are recognised by the CTT
 - ii The time/distance is better than 120% of the time/distance of the current national competition record for the event and category as listed in the CTT handbook.
